

## FUNCTIONAL AND PERFORMANCE TESTING

DATE	
PROJECT ID	
PROJECT NAME	Optimising user, group and role management with access control list and Workflows

### MILESTONE 9 : FLOW

**PURPOSE:** The purpose of creating a flow in the Optimizing User Group and Role Management with Access Control and Workflows project is to automate and streamline the sequence of actions involved in managing user roles, permissions, and access rights. A well-defined flow ensures that tasks such as role assignments, permission approvals, user onboarding, and access revocation follow a consistent and logical process.

**USE :** Flows are used to define the step-by-step progression of actions, such as user role assignment, approval of access requests, periodic access reviews, and role revocation processes.

### ACTIVITY 1: CREATE A FLOW TO ASSIGN

#### OPERATIONS TICKET TO GROUP

**STEPS:** Open service now. 1 .Click on All >> search for Flow

Designer

2 .Click on Flow Designer under Process

Automation.
